Business Plan

High-Voltage Transmission Tower and Telecommunication Tower Business as Thailand's first manufacturer of high-voltage transmission tower and a leader of the industry, Ua Withya Plc.'s strategic move is to strengthen its business through improving company to its full efficiency.

In preparation for the expanding market of high-voltage transmission tower business in Thailand and ASEAN, the company is increasing its manufacturing capacity Energy Business. The company has been investing in alternative energy since 2015 by started in biomass power plant.

Investment Highlight

- For the small and medium investment project size, the company's policy is to invest with a shareholding structure of more than 50% to taking a total control in the business.

Risk Factor

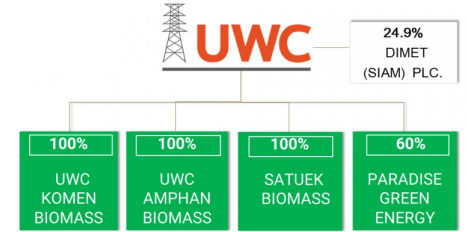

- The Fluctuation in fuel price in the long run In the Energy Business, fuel price is an important factor. The company strategy against the fluctuation in fuel price is through an engineering modification in its power plants to efficiently consume fuel and able to receive a mixture fuel type.
